

## RSD-G

### Radiant Stream Director Multimedia Gateway

## HIGHLIGHTS

- Advanced Billboard and Video services
- Radiant Stream Director Flexibility
- Control of your Local Channels
- Creative Control of your Signage
- Dynamically Schedule Signage and Programming for Different Times of Day
- Tailor your programming by building or community
- Works in Concert with the Radiant On-SiteTV hosted Streaming Service

**VividEdge RSD-G** is a low cost streaming multimedia and Signage Gateway. It allows property managers to provide localized signage and video services using Radiant Communications' Intelligent Stream Direction Method of directing localized multimedia services to specific communities of customers. It is an easily implemented device and works in concert with Radiant's line of local insertion encoders to bring localized web based streaming service into coaxial cable based building distribution systems. It is ideal for Hotels, Gated Communities, Constant Care Facilities, and other institutions.

The RSD service brings Over The Top Localized Media to your Android based Portable Devices, and your Cable Connected TV sets.
