

## RCC SPLICE TRAYS

All of the splice trays are made of 6061 electroplated aluminum. A self adhering 12 fiber splice chip is included with each splice tray. The RMM and RFM are utilized in all RCC Fiber Optic Patch Panels.

### RCC Splice Tray Part Numbers

#### RMM – HS12

Small sized 12 fiber splice tray used with RCC W12 & W24 units.

#### RFM – HS12

Large sized 12 fiber splice tray used with larger RCC Rack & Wall units
